

RAPTOR

MANUAL STAPLER

RAPTOR® CT-H7000P Compression Tacker

The CT-H7000P compression stapler drives RAPTOR® 16 gauge composite staples. Our heaviest gauge staples can be driven by this powerful stapler offering the operator greater flexibility when compressed air is unavailable.

This professional tool has been ergonomically designed for comfort and ease of use.

Hardened steel working parts, a simple bottom loading system with a magazine like that of a pneumatic stapler make the CT-H7000P a great addition for any operator who needs a portable precision stapler for heavy duty jobs.
